TERMS OF REFERENCE

Succinct summary with policy recommendations/implications in four important sectors (i) Health (ii) Education (iii) FRA and (iv) SCA to TSS.

Title of the project	Succinct summary with policy recommendations/implications in four important sectors (Health, Education, FRA and SCA to TSS)
Project Duration	3 months
No. of personnel required	02
Position title	Sr. Consultant

1. Study Background:

The network of Tribal Research Institutes (TRIs) was started in 1953. From the First Five Year Plan itself, it was considered necessary to fill up the data gaps and make available other related inputs regarding nature and magnitude of problems faced by different tribal groups. The main function assigned to the TRIs include conducting research and evaluation studies and providing planning inputs to the State Governments.

In India 26 Tribal Research Institutes (TRIs) are functioning since their inception. All the Tribal Research Institutes have done many projects on different sectors over the years. For the improvement of these sectors the recommendations and their implications suggested by TRIs are often not being considered by the policy makers as they are not documented properly at one place. Therefore, there is a need to review all the study reports sector wise (health, education, FRA and SCA to TSS) and indicate the key recommendations/area of concern which will be beneficial for the policymakers and administrators.

2. Broad Objectives:

- (I) To review and examine the reports of all TRIs of India related to health, education, FRA and SCA to TSS which they have prepared.
- (II) To prepare a compendium of summary findings of the projects with policy recommendations.

3. Methodology:

It is proposed to review and examine the existing reports on research, evaluation and documentation done by all TRIs of India for four important sectors like health, education, FRA and SCA to TSS. After examining and reviewing those reports, a compendium containing summary of findings of the projects with policy recommendations and their implication will be prepared for health, education, FRA and SCA to TSS separately and submitted to MoTA, GoI. The consolidated report will be published digitally in shape of books and uploaded in the portal.

4. Duration of the Project: 3 Months.

5. Required Human Resource with Qualifications:

For smooth conduct of the study, two senior consultants will be engaged to make compendium on (i) health and education and (ii) FRA and SCA to TSS for a period of 03 months.
