TENDER CALL NOTICE

Sealed tenders are invited by the undersigned for supply of Dental consumables at the SCB Dental College & Hospital Cuttack for a period of 1 year. The detailed terms and conditions in the form of “Tender Paper” will be available in the office of the Principal from 11:00AM to 4:00 PM on all working days within 21 days from the date of publication on the news paper or can be downloaded from the website [www.scbdch.nic.in](http://www.scbdch.nic.in) within the same period and same time schedule. The interested parties can purchase the “Tender Paper” from the office of the Principal, SCB Dental College & Hospital, Cuttack by paying Rs. 550/- (Rupees Five Hundred Fifty ) only which is non-refundable. Those who are downloaded the tender paper from the website can be submitted with a demand draft of Rs.550/- (Rupees Five Hundred Fifty ) only drawn in favour of Principal, SCB Dental College & Hospital, Cuttack payable at Cuttack. The last date of receipt of the tender paper will be the 21<sup>st</sup> day 1:00PM from date of publication in the newspaper. The tender is invited under two bid system i.e. Technical bid and Financial Bid. The interested agencies are advised to submit two separate sealed envelopes, super scribing “Technical Bid” and “Financial Bid”. Both the sealed envelopes, should be kept in a third sealed envelope super scribing “Tender for Dental Consumables, SCB Dental College & Hospital, Cuttack”. The tender will be opened on the next working day at 11:00AM in the presence of the Bidders or their authorized representatives before the Institutional Procurement & Technical Committee. The financial bid of technically qualifying agencies shall be opened in the presence of the bidders within 21 days from the date of opening of technical bid. The particular date will be communicated to the eligible bidders after opening of technical bid. Tender received after scheduled date and time shall not be entertained. The authority reserved the right to reject or cancel any/all tender papers without assigning any reason thereof. It is mandatory that the tender paper will reach the office of the undersigned through registered post/ Speed post.

**Cuttack.**

## **TERMS AND CONDITIONS FOR SUPPLY OF DENTAL CONSUMABLES**

- 1.1 Sealed tenders should be received before scheduled date and time by the Principal, S.C.B. Dental College & Hospital, Cuttack, Odisha for the purchase of Dental Consumables for S.C.B. Dental College & Hospital, Cuttack. Any tender received after the due date & time will be rejected / returned unopened to the sender. The tenders will be received through Regd. Post / Courier services / Speed Post only. The bidder should mention valid phone number and E-mail ID over the envelop.
- 1.2 The Sealed tenders submitted by the bidders will be opened by the Institutional Procurement & Technical Committee at the board room 2<sup>nd</sup> floor new annex building, S.C.B. Dental College & Hospital, Cuttack on schedule date at 11:00 AM. The bidder or their duly authorized representatives are allowed to be present during the opening of the tenders, if they so like.

### **Eligibility Criteria and Documents to be submitted**

The bidder shall furnish the following documents to establish the bidder's eligibility.

- 2.1.1 Tender paper cost as mentioned in the tender.
- 2.1.2 Self-attested photocopies of GST registration certificates
- 2.1.3 Self-attested copies of GST return of 2020-21
- 2.1.4 Self-attested order copies of similar nature of work, if done by the firm.
- 2.1.5 Self-attested copy of last three-year Income Tax return (F.Y 2018-19, 2019-2020, 2020-21).(*The annual turnover of the firm should be at least 15 Lakhs/annum.*)
- 2.1.6 Submit valid drug license wherever applicable.
- 2.1.7 Submit Price Bid in the prescribed format.(*It should contain price of the Dental Consumables including of all taxes & transportation charges.*)
- 2.1.8 Technical Bid should be as per the Specification given and should be submitted in both hard copy and soft copy as per the given format.
- 2.1.9 Undertaking/Declaration that the firm is not blacklisted by any organization/institution.

### **Tender Terms and Conditions :**

- 3.1.1 The item should arrive at the Principal, S.C.B. Dental College & Hospital, Cuttack in good condition.
- 3.1.2 The selected items will have to be supplied within 2 weeks from issue of purchase order.
- 3.1.3 If required, the bidder may have to submit sample of the items for approval.

- 3.1.4 If the supplied materials are found substandard after quality check, it will be returned back to the bidder and cost of the item plus its transportation expenses will be deducted from the financial claim presented by the firm.
- 3.1.5 In case of re-ordering, the pricing of the items will remain valid for one year from the date of approval.
- 3.1.6 In the event of the date being declared as a holiday for purchaser's Office, the due date of submission of bids & opening of bids will be the following working date & time.
- 3.1.7 The authority reserves the right to accept / reject any part thereof or all the bids & without assigning any reason thereof.
- 3.1.8 The firms who would fail to supply the materials within the time limit as publish in the tender notice without a valid reason will be blacklisted.

### **Issue of Purchase Order:**

The purchase order will be placed to the concerned firms after the approval of the institutional procurement & technical committee.

### **Payment:**

100% payment will be made after receipt of the items and its entry in the institutional stock ledger.

### **Note:**

1. Any further communication regarding the tender and related corrigendum notice will be displayed in the Website of SCB Dental College & Hospital, Cuttack. i.e. [www.scbdental.nic.in](http://www.scbdental.nic.in)
2. Part of tender can be accepted.
3. The list of Dental Consumables to be supplied is as per **Annexure – I**.
4. EMD term and condition:
  - a) After provisional selection of the firm, the bidder must submit an earnest money deposit of 2% of the bid amount in favour of “**Principal, S.C.B. Dental College & Hospital, Cuttack**” in shape of Bank Draft from a Scheduled Bank payable at “**Cuttack**”. The EMD of the successful bidders will be returned back after delivery and stock entry. It can be collected from the office of the Principal, S.C.B. Dental College & Hospital, Cuttack.
  - b) If the firm fails to supply in time or supplies not of standard quality items or violates the Tender Terms and Conditions, the EMD will be forfeited and the firm will be blacklisted.

**Annexure - I**  
**Dental Consumables 2021-22**  
**SCB Dental College & Hospital, Cuttack**

SL NO	Item Names	Specifications	Quoted Amount(Inclusive of all taxes)
1	Acid Etchant	Gel/Liq used for etching ceramic denture i. 37% Phosphoric Acid ii. HF Etchant (5%)	
2	Acrylic finishing stone	Used with lab/Chair attached micromotor with straight hand piece. Carborundum St. HP - flame / Round/ Fissure	
3	Acrylic trimming burs (metal (fissure, flame-shaped, round)	Contraangle HP Round / Flame / Shaped St. HP	
4	Air rotor burs		
	Tooth preparation Crown & Bridge	TR13C, TC 11C, TR 62C, WR13C (Coarse) EX 11, EX12, FO 27, TR 20, TF 11, SF 11, SI 48 (Standard) CE 15EF, CE 16EF, FO 41EF, EX 27EF, EX 21EF, TC 11EF, TRS14EF (Extra Fine)	
	Laminate Veneer (Porcelain Veneer kit)	v Depth cutting diamond points v Tissue protective end cutting bur v 14 kinds of FG diamond points in 3 different grits (Regular, fine, superfine)	
5	Alginate impression materials	*Irreversible hydrocolloid impression material *used for making impressions. Lead Free * Ample working time	
6	APF Gel (with trays)	Acidulated phosphatic fluoride 2.26% GCI used in the prevention of Dental consumable to be used with foam tray.	
7	Articulating Paper (40 micron, 20 micron)	Used to check occlusal contacts available in different thicknesses 10m, 12m, 14m, 20m, 40m. v Extremely thin & tear resistant v Coated with liquid colors on both sides (Shapes -Straight -Horse shoe shaped)	
8	Beading & Boxing wax	Beading wax available in strips 2-3mm width strip Boxing wax available in sheets 10-15mm width of sheets used in preparation of master cast of (D)	
9	Block out Wax (for undercut)	Wax suitable for blocking undercuts, cavities and errors on plaster model for both model casting & crowns as well as bridge technique v melting range 71 – 87 degree celsius v medium hard v Dimensionally stable during processes involving heat v ideal for duplication with duplicating gels or agar agar v very high adhesive qualities even on damp models.	
10	Blue Tips for Micropipette	To use in micropipettes in DC estimation	

11	Bone graft material - Xenograft / $\beta$ -TCP Hydroxyapatite material	Natural bone mineral replacement of bovine origin whose structure & chemical composition resembles natural human bone. v Slow resorption & increases the stability of augmentation. v Micropores of 5000x. v Bone granules of  1) Granules -0.25- 1mm 0.25 g- 0.5 cm <sup>3</sup>  2) Granules 0.25-1mm 0.5 g- 1.0cm <sup>3</sup>	
12	Calcium Hydroxide	Powder, paste and light cure tube	
13	Capillary Tube	For clotting time estimation	
14	Casting wax sheet for RPD	Pattern wax for RPD fabrication. Available in all designs for fabrication of different componets of RPD.	
15	Cellophane strip	0.375" x 4" mylar strips. used as an instrument to achieve a convex inter proximal surface. - have smooth finished edges for patient comfort. - resist solvents, are very strong. - will not stretch, curl or break	
16	Cellophene Sheet (Denture packing)	Clean, thin, transparent sheets used in denture packing (5" x 5")	
17	Ceramic Repairing Material (composite)	Ceramic repairing kit Composites of different shades universal primer bonding agent and accessories . All are light cure system.	
18	Cheek Retractors	v One piece plastic retractors v Provides unobstructed view of anterior & posterior teeth v Compatible with steam & chemical sterilization v used in Dental photography v Different Sizes – adult & pediatric size v With wings	
19	Chlorhexidine Solution 2%	v 0.12 % chlorhexidine, used as mouth wash v 500 ml / Bottles	
20	2% Gluteraldehyde Solution	liquid chemical sterilant & high-level disinfectant intended to sterilize or disinfect reusable medical devices which contact sterile areas of the body and mucous membrane.	
21	Coe-pak	Regular set, Non-Eugenol	
22	Cold mould seal (big)	v Used as a separating medium with Gypsum product. v Major composition sodium alginate v Suitable for packing /pressing technique & cast molding v Make tough film with elasticity which is unbreakable in pressure.	
23	Compomer	Polyacrilic modified resin composites. Used generally in paediatric patient.	
24	Composite Bonding agent	v Combined total etches, self-etch& selective etch adhesive. v Consistent bond strength to moist & dry etched dentin. v One step one coat adhesive application. v Self & dual cure compatible. v Contains methacrylates, ethanol, water, highly dispersed silicon dioxide, initiators, and stabilizers. v 1 x 3gm Bottle	
25	Composite luting cement	Dual cure	

26	Composite polishing kit,(Micromotor and Air rotor)	Burs & polishing cups for lab micromotor and contraangle chairside micromotor. v comprehensive assortment of stones & impregnated silicone polishers for finishing & polishing of composites & Glass ionomers. v Autoclavable	
27	Core building dual cure resin	v Indicated for post cementation, core build ups, crown & bridge cementation. v In 3 shades – dentin, white & translucent v Optimal monobloc bond v Contains fluoride & are radio opaque v Auto mix syringe delivery system. v 5ml syringes with non-rinse conditioner & adhesive.	
28	Core built up material	Used for core build up after RCT	
29	Clean Sheet	disposable, sterile size of 8 inch for patient overcovering.12 pieces /box	
30	Dappen Dish	Dense glass vessel for mixing dental medicaments or fillings. Thick & heavy base Ideal for mixing acrylics, resins, sealants & other materials	
31	Dental Stone	Type III gypsum product Alpha form of calcium sulphate hemihydrate - Used to pour models of dental structures. - 1 Kg/ packet For model fabrication	
32	Die stone	Type IV Gypsum product Alpha form of calcium sulphate hemihydrate Excellent chip resistance Adequate working time & good dimensional stability Compatible with all types of impression materials	
33	Different size of abrasive stones for denture finishing	Fine grit tools for St. HP	
34	Dynaplast	Elastic adhesive bandage 10cm x 4cm - Skin color - Cotton material - Used for major injury dressing	
35	EDTA Gel (24%, 15%)	Root canal preparation cream for chemico-mechanical preparation of root canals. Helps to remove calcifications & lubricates the canal to permit more efficient instrumentation. - 9g / tube	
36	Electrolyte liquid for electropolisher	used for electro polishing metal frameworks	
37	Eugenol Liquid	100% pure natural essential clear oil with spicy, warm and characteristics of clove.	
38	Cordless Gingival Retraction System	15% aluminium chloride composition Gingival retraction with haemostatic effect Flexible tipped syringe for easy application	
39	Fibre splint (Braided fibre for composite / resin bonded bridge / splint)	Ribbon - for resin bonded bridges available in ships of different length & thickness– 4mm,3mm & 2mm width. - ultra high molecular weight polyethylene fibres - adaptable, durable & impact absorbent	
40	Fibre splint	(Composite material (Ligature)	
41	Filter Paper	Normal size	
42	Finishing stone – Carborundum	To be used with lab shaiqk hand piece micromotor.	

43	Fluid Wax / Correcta wax	Used for recording PPS - High percentage flow at body temperature - Sufficiently hard & rigid at room temperature - Resist warpage & change of detail.	
44	Fluoride application tray	Foam trays available in different sizes	
45	Fluoride Gel	for dental use	
46	Fluoride Varnish	Highly concentrated form of fluoride	
47	G.P. Point No. 15 – 40	Thermoplastic filling material	
	45 – 80	Cadmium free, latex free	
	90 – 140	Hand rolled Assorted sizes	
48	Gates Glidden Drill	32 mm Sizes (1-6) Pack of 6 drills Used for opening the canal & for coronal part of the canal treatment	
49	Glass Ionomer Cement (Type – I, II, IX) light cure	Powder & liquid form Type I- for cementation of crown Type II -Restorative Type IX – Used for core build up Improved abrasion resistance High fluoride release Higher filler loading Triple cure mechanisms	
50	Glass Ionomer Luting Cement (Chemical cure and dual cure)	Strontium based glass ionomer radio opaque Surface strengthening effect Consistent predictable seal mini pack powder 15g liquid 10g (8 ml)  Type 1 - Luting Cement Type II GIC (Fuji II) – Restorative Cement	
51	Glaze Ceramic	Used for glazing PFM or metal free restorations In paste form. Homogenous glossy surface in 1 firing cycle	
52	Glycerine	Used in fumigators Liquid form pack of 100 ml	
53	Hand wash liquid	To be used for hand wash.	
54	Flexible Rotary files	Triangular cross section Non – cutting tip Enhanced cutting efficiency Tough files with excellent flexibility 350 rpm speed & 1.5 Ncm torque Assorted size of 21mm & 25 mm	
55	In-lay Wax (blue)	Contains pasaffin wax, - used in modelling of inlay, onlay, crown and bridges. - Composition: Blend of Hydrocarbon Waxes, Colorant & Excipients. - Box with 10 sticks (60 gms).	

56	Impression Trays (Perforated, Assorted size, 0,1,2,3,4, sectional trays) (Upper & Lower)	Rim lock stainless steel trays. rigid, reusable trays recommended for putty wash technique & alginate impression. Used for dentate mouth Set of 8 trays: • Impression Tray Dentulous Perforated Upper - U1, U2, U3, U4 • Lower –L1, L2, L3, L4	
		Sectional adjustable trays (Stainless steel, adjustable Impression trays)	
		Perforated edentulous trays - rigid, reusable, autoclavable trays	
		(Non-perforated) v Aluminium trays for Complete Denture impression v Assorted size, 0,1,2,3,4 Maxillary and mandibular impression trays	
57	Impression Trays for Pediatric mouth	<ul style="list-style-type: none"> <li>• Made up of Stainless Steel</li> <li>• Premium quality Impression trays of Paediatric size</li> <li>• Rust free</li> <li>• Autoclavable</li> </ul>	
58	Impression Trays – Triple Tray	<ul style="list-style-type: none"> <li>• Disposable impression trays for counter impressions and bite registration</li> <li>• Rigid plastic frame, thin non-tear mesh, ergonomically designed handles</li> <li>• Specially designed walls for extra retention with nylon net</li> <li>• Package of Bite Registration Trays - Assorted - 35Pcs:- 10 Anterior, 10 Posterior, 5 Quadrant, 5 Side less, 5 Full arch</li> </ul>	
59	Impression Trays – Water irrigated for Agar Impression	(Upper & Lower)	
60	Iodoform Powder	A volatile pale yellow sweet smelling crystalline organic compound of iodine with antiseptic property.	
61	K. Files NiTi 15 – 40	21mm, 25mm	
	flexible 45 – 80	21mm, 25mm	
62	K. Files Length (21mm, 25mm, 29mm)	Twisting or grinding a square or triangular tapered shaft, so that the cutting edges are almost the long asses of the instruments which most common used for cleaning and shaping.	
	No 8		
	No 10		
	15 – 40		
	45 – 80		
	90 – 140		
63	Light cure composite material	Visible light cured, radiopaque highly filled, nano filled hybrid composite restorative material for all cavity classes of anterior and posterior teeth. Restorative composite supplied in single syringe System Available in different shades – A1, A2, A3, B1, B2, universal	
	Shade – A1, A2, A3, B1, B2, universal		

64	Masking agent/Flowable z 250,z350-A1,A2,A3,B1,B2	excellent flowable composite that delivers high strength & wear resistance. characterized by optimum surface affinity, penetrates into most difficult area Available in different shades Shade A1,A2,A3,B1,B2 Combo Kit with - 4x2g Syringes (A2, A3, B2, B3), 20xApplicator Tips	
65	Light cure flowable composite	tube	
66	Light curing (Calcium Hydroxide)	<ul style="list-style-type: none"> <li>• Light-curing radiopaque calcium hydroxide paste</li> <li>• Ready-to-use one-component material</li> <li>• Effective protection of the pulp</li> <li>• Acid-resistant</li> <li>• Supports the formation of secondary dentine</li> <li>• 2 x 2.5g Syringes</li> <li>• Application cannulae type 41</li> </ul>	
67	Magnet attachments for overdenture work	Disc/Circular shaped. - 3mm (Diameter) x 1.5mm (Thickness). - Strong magnets made of samarium cobalt material.	
68	Metal Finishing kit (NP alloy kit)	Finishing & Polishing kit for non-precious alloy - Lab Series stones,made of pure aluminium oxide for adjusting PFM alloy, - assortment of Brownie, Greenie and Supergreenie points for polishing precious and semi-precious metal alloys to a high-lustre.  - Brownie KN7, WH6, PC2 – for pre-polishing, 1 each Greenie KN7, WH6, PC2 – for polishing, 1 each Supergreenie KN7, WH6, PC2 – for super polishing - Used with straight hand piece lab micromotor	
69	Micro motor burs	Round, Flat Fissure, Tapped Fissure, Inverted Cone	
70	Microscope Slides	Glass slide for routine microscopic test	
71	Miracle mix	Triple-cured, resin reinforced glass ionomer crown and core build-up material. - used as a base under composite resin and amalgam, or as a temporary restorative. - Powder & liquid form 1 x 15g Powder 1 x 17g Alloy 1 x 8ml Liquid	
72	MTA	Powder liquid	
73	N/10 HCL	100ml	
74	No 26 wire	for orthodontics use	
75	One step bonding agent (self etching, priming & bonding)	Self etch bonding agent	
76	Paper Point No. 15 – 40	superior absorbency that ensures complete drying of the entire canal.	
	45 – 80		
	90 – 140		
77	Permanent denture liner	Silicone based denture liner (Self cure)	
78	Peso Reamer(No1-5)	No 1-5 Assorted <ul style="list-style-type: none"> <li>• Higher anti-corrosion resistance.</li> <li>• Uniform and stabilized hardness.</li> <li>• The safety tip prevents ledges or perforation.</li> <li>• Designed to be broken at very near to shank.</li> <li>• Easy identification by the number of grooves in the shank.</li> </ul>	

79	Pit & fissure sealant	Dental sealant are material placed in this pits and fissure to fill them in, creating with smooth surface which is easy tyo clean.	
80	Plaster of Paris	1 kg pkt x 2000= 2000 kg - Type 1 gypsum product - Beta form of calcium sulphate hemihydrate material in powder form - White color	
81	Polishing cake	For polishing dentures (tripoli polishing compound)- Made of iron oxide.	
82	Poly carboxylate cement luting	<ul style="list-style-type: none"> <li>• Cementation of cowns, bridges,inlays</li> <li>• Lining of cavities and lesions</li> <li>• 1 x 60 g Powder</li> <li>• 1 x 40gm Liquid</li> <li>• Mixing Pad, Spatula</li> </ul>	
83	Porcelain finishing kit	Kit includes instruments for <ul style="list-style-type: none"> <li>• Adjustments: Dura-White</li> <li>• Prepolishing: Standard</li> <li>• Polishing: Ultra (yellow band)</li> <li>• High gloss: Ultra II (white band)</li> </ul>	
84	Precision attachments for crown & bridge	Rhein-83 - Elastic retention attachment system	
85	Protaper Files (Sx, S1, S2, F1, F2, F3, F4, F5)		
	Sx	19mm	
	S1	21mm, 25mm	
	S2	21mm, 25mm	
	F1	21mm, 25mm	
	F2	21mm, 25mm	
	F3	21mm, 25mm	
	F4	21mm, 25mm	
	F5	21mm, 25mm	
86	Putty for laboratory work	Lab silicon for duplication. Duplicating Putty Polysiloxane	
87	6% Endodontic G.P. (F1, F2, F3, F4, F5)	designed 6 % (0.06) taper and 28 mm length to fit precisely prepared root canals and offer a quicker obturation option for root canals with a greater taper.	
88	6% Endodontic Paper point	<ul style="list-style-type: none"> <li>• Colour coded (easy identification)</li> <li>• Highly absorbent</li> <li>• Shaped to fit easily into the canals</li> <li>• F1, F2, F3, F4 and F5 and two assortment packs with 60 Paper points.</li> </ul>	
89	Protective Sleeve	For RVG Sensor <ul style="list-style-type: none"> <li>- Leak proof construction</li> <li>- Extra soft, tear resistant plastic</li> <li>- Extra elasticity to fit comfortably on patient</li> <li>- Size - 8"x 1-5/8"</li> </ul>	
90	Reamers No. 15 to 40	21mm,25mm	
	45 to 80	21mm,25mm	
	90 to 140	21mm,25mm	

91	Retraction Cord (Drug Impregnated)	Size 000- (black and purple) 00-(black and yellow) 0- (Purple and white) 100% cotton, knitted into thousands of tiny loops to form long, interlocking chains	
92	Root Canal Sealant	Base and catalyst tube	
93	RTV materials for maxillofacial pigments and stones	Maxillofacial prosthetic material	
94	Rubber Base – Polyvinyl Siloxane-Addition Type	Polyvinyl siloxane impression material	
95	Rubber base impression material (Additions silicon) light body	Soft Putty/Regular Set with high viscosity impression material with optimum flexibility for easy removal from undercuts. - Light body - Wash material for the Putty-Wash impression technique Syringe material impression material for relining	
96	Rubber base impression material	(Additions silicon) putty	
97	Sand blasting powder – Aluminium oxide	Different sizes of particle 25mm 50mm 100mm	
98	Sand paper 3m and Emmerly paper fine	For denture polishing different consumers 50-400 120 micron, 80 micron, 40 micron & Emery papers	
99	Sand Paper mandrel	"split" above the reinforced base allowing the user to wind sandpaper, polishing cloth, or other abrasives around the gap. 3/32" head diameter, 3/4" slot length, 1/64" slot width. 1-3/4" overall length.	
100	Silicon duplicating material	Two liquids, base and catalyst are mixed in the ratio 1:1, Self-cure lab silicone	
101	Silicon rubber polishing tips for composite, metal, ceramic restorations	To be used by contraangle handpiece chairside.	
102	Sodalime	Which process for various health benefits.	
103	Sodium Citrate	For ESR test	
104	Spreader	25 mm no 15-40, no 45-80	
105	Stainless steel burs for straight hand piece	(micro motor)	
	Straight fissures	(micro motor)	
	Round	(micro motor)	
106	Stainless steel crowns	(Assorted)	
107	Stainless Steel Wires spool (G – 21, 20, 19)	Smith SS wire	
108	Suction tip (Plastic & Metal)	Disposable Saliva Ejector Suction Tips Smooth and fixed tips are securely fastened Sterilizable & reusable, Metal Suction Tip (2.0mm)	
109	Surgical Tungsten Carbide burs	(Round & Straight) for straight handpiece	
110	TC Bur for metal trimming	(Assorted size & shape)	
111	Temporary cement for provisional crown	Eugenol free temporary luting cement.	

112	Thermoplastic sheet for pressure moulding machine of different thickness (0.8, 1.0, 2.0)	Different thickness (1 mm, 1.5 mm, 2 mm, 3 mm, 5 mm)	
113	Tissue conditioner for denture	Acrylic based on silicon based (Heat cure or self cure) Temporary Soft Denture Liner, self-curing, resilient methacrylate formulation, intended for use as a limited-term soft lining material for complete and partial dentures	
114	Tissue Paper	Super absorbent, Convenient Hygienic Super Soft 1000 tissues / pack	
115	Tooth colour cold cure acrylic resin powder (shade A2, A3, A1, B1) for Crown / Bridge	For provisional crown A fine acrylic material in a wide range of shades for crown and bridge work. Used for precise crown and bridge work.	
116	Tooth colour cold cure acrylic resins (liquid)	Bottle of 50ml	
117	Petroleum Jelly	100% pure petroleum jelly (petrolatum), semi-solid mixture of hydrocarbons obtained from petroleum. - Translucent paste, odour-less. - Does not oxidize on air exposure. Water-insoluble, dispersible in oils, soluble in hot alcohol, - melting point >100°F (>37°C). - 500 g / box	
118	Zinc Oxide Powder	For temporary filling	
119	Zinc phosphate luting cement	A Zinc oxide / Eugenol / formulation. For lining under non-resin filling materials. As a temporary filling material and cement As a temporary seal.	
120	Modelling wax sheet	<ul style="list-style-type: none"> <li>• Sheets of pink wax for modelling denture bases and acrylic saddle.</li> <li>• All-purpose multi utility wax</li> <li>• 1 x 500gm wax / packet</li> </ul>	
121	Impression compound	Thermoplastic impression material in the form of round cake to make a primary impression of edentulous cases. Impression compositions soften at 60°C. Used with a matrix band for single tooth impressions. Pack of 5 Cakes	
122	Zinc oxide eugenol imp paste	Rigid, irreversible impression material. Used in CD secondary impression Consists of base and catalyst paste.	
123	Green stick compound	Thermoplastic impression compound sticks for functional & relining impressions Used in CD border moulding, impression tray extension 10 sticks (90 gm) / packet	
124	Sticky wax	For Fracture repair, 1 x 10 sticks	
125	Artifoil (10 micron)	Used in FPD for occlusal adjustment.	
126	Temporary Luting (NETC)	Used in luting temporary crown - Very low film thickness - Strong adhesion to tooth - Easy cleaning of tooth Eugenol-free	
127	Bonding agent	Used in composite filling	

128	Alu wax	Used in CD, FPD, 2mm bite registration v Bite registration wax sheets containing aluminium particles. v Dimensionally stable v Ideal for checking & maintaining accurate occlusal records v 1.7 to 2mm thick	
129	Light body gun	Used to mix (base and catalyst) & dispense light body for impression making in FPD	
130	Scaler tip	Used in oral prophylaxis in different shapes. - Along with ultrasonic scalers - Are of different shapes	
131	Tray adhesive	Used for adhesion of elastomeric rubber to custom tray. - 30ml with brush applicator	
132	Mock up wax (white)	For waxing up the cast for mock up. - White color - Supplied in box	
133	Oratek tooth	Used in CD acrylic tooth complete set ant & post of different shade.	
134	Premadent tooth	Used in CD acrylic tooth complete set ant & post of different shade.	
135	Metal primer	Designed for bonding of a wide variety dental metals- semi precious metal, precious metal, and non-precious metal to polymerisable resin material. - 1 x 5 ml Bottle	
136	Agate spatula	v Cement mixing GIC & temporary cement. v Flat smooth fore-end v Made of plastic material v Immaculate finish & optimum durability	
137	Drape sheet	Used on patient while performing dental procedure.	
138	Die pin	Double pin system Trouble free positioning Narrow profile & tapered design Twin pins having rubber tips. 1000 pins / packet	
139	Bite registration paste – Jet bite	Used in bite registration in FPD	
140	Phosphate bonded investment materials	Used in FPD casting	
141	Die spacer	Colored paint on material applied on dies in FPD to create space for luting cement.	
142	Die hardner	Applied on surface of die to increase its hardness	
143	Adhesive resin cement – translucent & opaque	Dual cure for luting ant metal free restoration. v comfortable & easy delivery in automix syringe. v No pre-treatment such as etching, priming & bonding necessary. v High adhesion, resistance to discoloration, long term stability, no post-operative sensitivity, strong & moisture tolerant.	
144	Duplicating material – agar gel	used in duplicating casts hydrocolloid based. 6kg /box	
145	Flexible denture materials - Valplast	Used in flexible denture fabrication.	
146	Fibre reinforced denture base resin	Meshes in preformed shapes for individual arches Used in making denture bases with good strength Have increase fracture resistance.	
147	Fibre reinforced Composite resin	For Crown & Bridge work	

148	Heat cure Acrylic Resin (Powder & Liquid) pink (veined), clear	v denture base material v Used for fabrication of full or partial upper or lower dentures. v Variety of shades (Pink, Light Pink, Veined, Clear) v 500gm/bottle	
149	Rubber Dam Kit & Sheets	v For Isolation & Fluid control v Kit includes- - Rubber Dam Punch - Rubber Dam Forcep - Rubber Dam Frame Plastic - Rubber Dam Sheet 6x6 Adult or 5x5 Pedo - Rubber Dam Clamp -11 Pcs (Adult) ,06 Pcs (Pedo) - Rubber Dam Template Acrylic	
150	Sterilization Indicator Tip	The tape indicates when sterile condition has been attained (275°F / 135°C). 1 roll - 19mm x 5000mm (50m)	
151	Medical grade silicone	Used in making maxillofacial prosthesis available in different shades.	
152	Orthakal	Dental Stone	
153	016 x 022 niti U/L	Niti U/L

292	Guttaperchha points	6% 20 25 30	
293	Toefflemia retainer		
294	Stainless steel matrix band		
295	Sectional matrix	sectional matrix system that delivers easy, predictable and accurate contact creation by utilizing advanced ring, matrix and wedge technology.	
296	Front reflecting mouth mirror		
297	Endoblock		
298	Endobox		
299	DG-16 Explorer		
300	Articulating spray	Universal color indicator to test the occlusal contacts & accurate fit of crown & bridges	
301	Arti- spot	v Contact color for testing accurate fit of crowns, inlays, onlays, telescopic crowns & clasp	
302	Articulating paper holder (straight & curved)	For grasping & holding the articulating paper. Made of stainless steel Serrated tips.	
303	Aluminium foil	v To cover chair handles & trays v Silver shade v Gloss mate finish	
304	Applicator tips	v Disposable, flexible micro brushes which are non-grip & lint free. v Tips can be bent into any angle for the placement of small controlled amounts of material in limited access areas.	

305	Artery forceps	v Straight with serrated jaws, 180mm length v Stainless steel material	
306	Bioguide Resorbable collagen membrane	Available in 3 convenient sizes 1)13 x 25 mm 2)25 x 25 mm 3)30 x 40 mm v Resorbable membrane permits homogenous vascularisation,tissue integration & wound stabilization	
307	Ceramic materials /ceramic kit	v For all ceramic restorations	
		Wax Up Technique - Wax Electric(Renfert) - Picosep(Renfert) - Die Hardener(Renfert) - Crowax (Renfert)	
		Investment -Ring 100/200 -Ring System 100/200 -Press Vest Speed Powder -Press Vest Speed Liquid	
		Divesting -Sandblaster(Renfert) -Sand(60 micron glass beads	
		Pressing -Emax Press Ingots(HT & LT shades A2, A3, A3.5, B2, B3+ MO) 20g bottles -Alox Plunger & Separator -Press Invex Liq -Investment Tong	
		Layering -Deep Dentin Kit -Dentin Kit	
		Stains & Glaze	
		Etching & Cleaning	
308	For metal ceramic restoration	v Opaque – A1, A2, A3, A3.5,B1, B2,B3,C1,C2,C3,C4	
		▯ Dentin body- A1, A2, A3, A3.5,B1,B2,B3,C1,C2,C3,C4	
		▯ Incisal – S1, S2, S3	
		▯ Effect 1, Effect 2, Effect 3	
		▯ Neutral powder	
		▯ Occlusal dentin	
		▯ Stain – A2,B2,C2	
309	Ceramic applying brushes	Sable fibres & red wood handles -Better control & easy application -Brush no.OP0 NO. P3, NO. P5, NO. P7, NO. S0, NO. S1	
310	Dental floss	Cords of thin filaments used for interdental cleaning. Nylon waxed monofilament threads.	

311	Denture relining material	Permanent relining material dispensed in auto mix cartridges. -Excellent bonding force without extra bonding agent. -Dimensionally stable -Less discoloration -Resistant to fungal growth	
312	Die separator	Creates a silicone-based microfilm to isolate plaster, acrylic and metal surfaces from wax or porcelain. Developed for wax dipping technique Solvent free Creates extremely thin layer 30ml/bottle	
313	Feviquick	Fast setting cyano acrylate adhesive Used to bond closed fitting parts or components	
314	Flask & Clamp	Sectional metal case in which plaster of paris or artificial stone is molded. Used for processing dentures or other resin restoration Clamps are made of metal to hold the flask during processing	
315	Flux	Low temperature flux used along with silver solder Used with most ferrous & nonferrous metals Active range 1050-degree F – 1600-degree F	
316	Garbage bags	Disposable plastic bags Black color 30 cubic centimetres capacity Dimensions – 15x 5.5x6 cm	
317	Haemostat agents	v Topical solution controls bleeding. v Contain haemocoagulase .2CU. v 10ml/bottle	
	- Flowable liquid		
	Gel (ferric sulphate gel )	v Viscous 20% ferric sulphate hemostatic gel containing binding & coating agents that are gentle on hard & soft tissues v stays in place while delivered v 5ml syringe with delivery tips	
318	Healing abutment (composite with osstem)	Assorted sizes Regular- 4.5mmx 5mm/7mm 5x5mm/7mm Mini- 4mmx5mm/7mm • -Conical Hex Connection System • Regular Platform (RP) 4.0mm / 4.5mm • Compatible With: Osstem® TS, Hiossen®	
319	Intra oral photographic mirrors	Metal double sided mirrors - Reflects approx 100% light, represent true colors - Highly Polished, rounded Edges - Light Weighted, high Durability - Corrosion Resistant - Autoclavable at 135 degrees Celsius - Antifog mirrors	
320	Intra oral & extra oral gothic tracers	For verifying centric relation - Consists of central bearing point & central bearing plate along with styli & tracing table - made of good quality stainless steel	

321	Implant Impression trays (stainlesssteel trays & plastic trays)	For implant impression making  v Stainless steel trays § Removable Segments § High quality § Excellent retention § Edentulous cases § Tooth-borne restorations § Set of 6 trays (Small, medium, large of both maxillary & mandibular arch)	
		v Plastic trays § maxillary & mandibular plastic trays of various sizes.	
322	Implants (Compactable with osstem)	v Titanium endosseus dental implants v Compatible with osstem implant kit. v Assorted sizes(mini and regular)	
323	Impression copings (Compactable with osstem)	Open tray impression copings - Mini - Regular Closed tray impression copings - Mini - Regular (Note: Compatible with Osstem Implant kit)	
324	Implant lab analog (Compactable with osstem)	Mini and regular of different diameter and height (Note: Compatible with Osstem Implant kit)	
325	Indelible pencil	To mark PPS during complete denture fabrication	
326	Instrument Sealing Cover	Self-sealing pouches Autoclavable Triple Seal, Triple Heat Process. Blue Tinted Transparent Film of PET and CPP. Wide Self-Seal Adhesive Strip. Large arrows as Process Indicators. New internal and external indicators 200 pieces/ box	
327	Kidney tray	Made of high quality stainless steel Durable & long lasting autoclavable 2 sizes  Small (6 inch) Large (8 inch)	
328	Metal Gauge	To measure the thickness of metal - Iwanson Gauge Caliper measuring tool. - Stainless steel material - Thin tips	
329	Mixing tips	Automatic mixing of impression material using the cartridge dispenser. - Ideally used with dispensing guns in the use of light body cartridges. - Dimensions of tip 480 x 360 x 260mm - 50 pieces / pack	
330	Metal pellets for casting	Box of Nickel – Chromium metal pellets used in casting for all metal and metal ceramic crown	

331	Medical grade silicone kit	For maxillofacial reconstruction Medical-Grade Silicone (M511 - 10:1 system - Shore 25) • Anti-Slump (or Thixotropic) Agent • Softening Agent • Intrinsic Colorants • Extrinsic Colorants (with in-built sealant system) • Medical-Grade Skin Adhesive (G609 ProBond) • Silicone Trimming Wheels	
332	Needle Holder	Holding suture needles - Made of stainless-steel material - short jaws and delicate serrations hold small needles and sutures.	
333	Orthocal stone	Type IV Gypsum stone - Fabrication of primary cast. - Non-brittle - 1kg /packets	
334	Occlusal bite Registration paste	A-silicone-based impression material with an automatic mixing device. - Smooth mousse-like consistency. - Working time maximum 20 s - Oral setting time minimum 50 s. - 1 pack contains v 2 x 50ml Cartridges v 12 x Mixing tips v 12 x Spreader tips	
335	Phosphate bonded investment materials	Used in FPD casting - Shock heat – rapidly or conventionally heatable precision casting investment material for crowns and bridges – also those made from pressable or press-to-metal ceramics	
336	P.K.T instruments	Used to carve wax patterns generally, a blunt blade of varying size and shape, which can be heated for softening the wax while fashioning the pattern. - No:1,2,3,4,5.	
337	Periodontal probe	Stainless steel single End (blunt)Probes thin Willam #6 (POW6). Markings (1,2,3,5,7,8,9,10 mm)	
338	Periosteal elevator	Periosteal Elevator Molt No.9 is double ended Instrument with one rounded, blunted end & another sharp-pointed end. - Blunt end is Spoon - Shaped. - Stainless steel material	
339	Periotome	• Thin blades to sever periodontal ligament easily • Sharp and durable cutting edges • Premium handle for increased comfort and decreased hand fatigue • Corrosion resistant • Autoclavable • Straight blades for anterior teeth and premolars. Angled blade for posterior teeth.	

340	Endodontic Plugger	Compacting filling Material during Vertical Condensation. Marked at 5 mm intervals to assess penetration depth. <ul style="list-style-type: none"> <li>• Stainless Steel helps in retaining their shape and resist breakage of tip</li> <li>• Ergonomically designed handle: lightweight and less fatigue</li> <li>• Corrosion resistance alloy</li> <li>• Autoclavable</li> </ul>	
341	Poly ether impression material	<ul style="list-style-type: none"> <li>• Crown and bridge impressions</li> <li>• Inlay and onlay impressions</li> <li>• Functional impressions</li> <li>• Implant impressions</li> </ul> <p>Hydrophilic, Monophase 2 x 240 ml Base Paste &amp; 2 x 30 ml Catalyst Paste.</p>	
342	Pumice polishing powder	For polishing dentures & appliances 500 gm packets	
343	Robinsons brush	Used with lab micromotor straight hand piece - For metal crown finishing	
344	Rubber bowl	Small/Large- Flexible plastic product for easy mixing, used repeatedly after cleaning. Material is suitable for hard and soft mixture L: 130 x 96mm, M: 130 x 86mm, S: 84 x 50mm, XS: 84 x 50mm	
345	Sterile tissue marking pen	bactericidal, antifungal gentian violet - pen with standard size tip - The marker is sterile and individually packed in a peel-open pack - standard packing of 10 markers per box	
346	Silver Solder	Fine Grain - high silver content (68.7%) alloy	
347	Spatula	Curved- smooth wooden handle and a tough stainless-steel blade which is slim and curved making it easy to mix alginate quickly and thoroughly Straight- smooth wooden handle and a tough stainless-steel blade, to mix gypsum products.	
348	Stock eye prosthesis	Material-Acrylic, Colour-White, <ul style="list-style-type: none"> <li>• artificial eye set of 50</li> <li>• Maintain shape and the movement of the eyelid and for cosmetic purpose.</li> </ul>	
349	Straight probe	Straight Probe No. 6 - Made of stainless steel - Fine straight tip - Standard handle	
350	Sprue wax	creating the gating system to use with the lost wax method Flexible wax wire in 4 different diameters – 2.5 mm, 3.00mm, 3.5 mm and 4.0 mm.	
351	T burnisher	For PPS recording, Double Ended Premium Solid, rust free, non-slip handle.	
352	Temporary restorative cement	Temporary filling material self-curing under humidity for the temporary filling of cavities. Material is impermeable to drugs.	

353	Titanium mesh	For Guided Bone Regeneration, non-absorbable, titanium membrane (one wall, two wall and three wall augmentation) (accessories-Extension, Healing Caps or Cover Caps) pre-formed 3D design that does not require additional trimming or bending. - Note: compatible with osstem implants	
354	Tooth set	v Semi anatomic tooth set Acryrock Premadent Oratek v Non anatomic tooth set	
355	Tooth colour heat cure acrylic resin powder (shade A2, A3, A1, B1) & liquid	A fine acrylic material in a wide range of shades for crown and bridge work& fabrication of scleral part of custom ocular prosthesis.- Bottle of 50ml	
356	Towel clip	Towel Clips Cross Action, Stainless Steel, Reusable	
357	Tweezer	Tools used for picking up objects too small to be easily handled with the human fingers. Stainless steel, autoclavable	
358	Wax Gauge	dental calliper is designed to measure wax thickness Made by stainless steel not easy to deform Approx. 12 * 7.5 * 1cm / 4.7 * 3 * 0.4in (L * W * H)	
359	ORAL CYTOLOGY BRUSH	Non-scored broom cytology brush	
360	ORAL CYTOLOGY METAL SCRAPE BLADE	Stainless Steel	
361	PUNCH BIOPSY KIT	(5.0mm, 6.0mm, 8.0 mm)	
362	GLASS SLIDE	Ground edges & lint free packing,75x 25mm,1.45mm thick	
363	COVER SLIP	(22 X 60 mm) (No.-4)	
364	COVER SLIP	(22 X 40 mm)	
365	ABSOLUTE ALCOHOL A.R.	-99.90%	
366	PAP STAIN KIT	Expiry date should be mentioned mandatorily &Expiry not before completion of current procurement year	
367	HEMATOXYLIN EOSIN KIT	Expiry date should be mentioned mandatorily and Expiry not before completion of current procurement year	
368	GLACIAL ACETIC ACID	Minimum assay- 99.5%, Weight per ml at 20 degrees- 1.04-1.05g/ml	
369	LEISHMAN STAIN	250ml, Manufactured by Qualigens	
370	TOLUDINE BLUE	1 % w/v	
371	DROPPER	Small size.	
372	DISTILLED WATER	MEDICAL GRADE	
373	ROMANOWSKI-GIEMSA STAIN	125 ml	
374	PARAFFIN WAX (QUALIGENS)	For Tissue embedding	
375	COPLIN STAINING JAR	Large opening with screw on cap, made up of durable, autoclavable polypropelene , Capacity of 5 slots,to hold upto 10 Slides back to back.	
376	PANCYTOKERATIN(AE1/AE3) ANTIBODY (RABBIT MONOCLONAL)	RABBIT MONOCLONAL	

377	VIMENTIN ANTIBODY (RABBIT MONOCLONAL)	RABBIT MONOCLONAL	
378	SECONDARY ANTIBODY KIT (ANTI-RABBIT/ANTI-MOUSE)	ANTI-RABBIT/ANTI-MOUSE	
379	SCS CALIBRATOR	e-CHECK (XE) L2 4.5ML	
380	AM KIT	For EC5V2 10K	
381	HEMOGLOBIN TUBE	Thickness -0.8-2mm, section shape – LTZ, Hardness- 7 HB	
382	HEMOGLOBIN PIPETTE	Material- Glass, Volume- 20microlitre	
383	HEMOGLOBIN STICK	Material- Glass	
384	MICROPIPETTE(FIXED VOLUME)- 5,10,50,100.1000µL	(FIXED VOLUME)-5,10,50,100.1000µL	
385	IOPA film for adults	E speed , size 2	
386	IOPA film for children	F speed, size 0	
387	Developer powder	Each pkt to make 9 ltrs of solution	
388	Fixer powder	Each pkt to make 9 ltrs of solution	
389	Dry laser printing film for CBCT machine	Size- 10 x 12 inches. For- Konica minolta dry pro sigma 2 printer	
390	Set of 3 tanks (developer, fixer and water tank)	Should be made of stainless steel of 9 ltr capacity each.	
391	Extra Oral Film	8 x 10 inches film for blue cassette	
		10 x12 inches film for blue cassette
