1. Introduction

Outsourcing now is an increasingly popular management tool widespread among organizations across the world. Outsourcing enables companies in developed countries to conduct business operations through a more cost-efficient and focused manner by tapping into the stream of highly skilled workers in developing countries, commanding wages that are far lower than those in developed countries. Business Process Outsourcing (BPO)/Information Technology Enabled Services (ITeS) in India which started around the mid-90s, has now grown by leaps and bounds. Numerous contracts have been forged between large companies of North America and Europe with companies in India to deliver quality outsourcing services at highly competitive rates in customer support, IT, and business processes. The Business Process Outsourcing (BPO) sector in India has set a goal of $50 billion in revenue by 2030.

Government of Odisha identify BPO/ITeS industry as a driving force for inclusive growth and creating employment opportunities across the state. This policy aims to attract BPO industries by enabling the best investment environment so that they can operate their enterprises productively accruing benefit to the state in terms of employment and revenue.

2. Advantage Odisha:

Odisha leads the country in terms of stable governance and creating conducive environment for investors with a first-of-its-kind Single Window Portal called Government of Odisha – Single Window for Investor Facilitation and Tracking (GO SWIFT). It has been introduced covering the complete life-cycle of industrial projects for
time-bound and hassle-free investment in the State. Digitized processes have improved and strengthened transparency.

Any BPO/ITeS company setting up unit in Odisha would benefit from the following:

a. **Availability of Talent:** For long, Odisha has been providing quality manpower to the BPO/ITeS industry across the country. Odisha has a large number of Arts, Science, Commerce, Engineering, Law, Medical and Nursing colleges as well as high quality vocational training institutions. This creates a large talent pool of well qualified candidates who can be employed by BPO/ITeS companies.

b. **Competitive Wages:** The cost-of-living index in cities / towns of Odisha as compared to Metros and other comparable cities of the country is lower and so also are the wages. Therefore, companies who set up their units in Odisha would enjoy significant cost savings in terms of lower operational cost.

c. **Infrastructure:** The state is domestically well-connected with over 250,000 km of road length and 15 national highways passing through the state. There are two functional airports at Bhubaneswar and Jharsuguda servicing major Airlines. Bhubaneswar is a major rail head on the Howrah-Chennai route, and Howrah-Mumbai route also passes through Odisha. It is a power surplus state having installed power capacity of more than 7000 MW and it is also the first state in India to have undertaken reforms in the power sector. Bhubaneswar, the state capital, was ranked first in the ‘Smart City Challenge’ of Government of India. With a coastline of 480 km located on the east coast of India along the Bay of Bengal, the state is served by 3 ports - Paradip, Dhamara and Gopalpur.

d. **Work-Life balance:** Odisha is a peaceful state. The population density of Odisha is also relatively low and pollution less. With long sea-shore and being house to Eastern Ghat hills/hillocks, it is blessed with natural bounties providing ample space for soul rejuvenating trips and holiday destinations.

e. **Educational facilities:** Bhubaneswar and several neighboring cities collectively make up the educational and research hub in Eastern India with the presence of niche institutions like IIT, IIM, XIM, NIT, AIIMS, IIIT, NISER, IISER, and several other research institutes of Government of India like Institute of Life Sciences(ILS), Institute of Physics, Institute of Minerals and Materials Technology(IMMT), Regional Institute of Education(RIE) etc.

f. **Healthcare facilities:** There are large numbers of good quality hospitals in Odisha like AIIMS, Government medical colleges and hospitals at Cuttack, Burla and Berhampur in the Government sector and Apollo, Kalinga, CARE, AMRI etc. in the private sector for providing good quality healthcare. In addition, there are large number of clinics for minor ailments and reputed diagnostic centers all over Odisha.
3. Financial Incentives/ Subsidies/ Exemptions:

(i) Subsidy on Capital Investment:

Capital Investment Subsidy on admissible items given in Appendix-A would be provided per seat to any BPO/ITeS unit depending on the location as given below:
